

HARIHAR MANOHAR KADHE

+91 9028991967 | hariharkadhe2@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Computer Science undergraduate with a CGPA of 9.32, skilled in Full stack development and IoT-based solutions. Experienced in building real-time web applications such as electricity grievance systems and Smart City command Center platforms. Hackathon winner and national-level project competitor, passionate about developing scalable and impactful technology solutions.

EDUCATION

B.Tech in Computer Science – S.B. Jain Institute, Nagpur

2023 – 2027 | CGPA: 9.32 / 10

HSC – Bhalerao College of Science, Saoner

2021 – 2023 | 72%

SSC – Adarsh Vidyalaya, Patansaongi

2011 – 2021 | 92.40%

TECHNICAL SKILLS

- **Frontend/Backend:** HTML, CSS, React, JavaScript
- **Languages:** Python, C,
- **Tools:** Git, GitHub, VS Code
- **Concepts:** Data Structures, DBMS, Agentic AI

PROJECTS

Electro-Safe — Real-time electricity complaint portal with tracking and notifications [Electricity Complaint System](#)

City-Eye — real-time, AI-powered smart city command center built with React, FastAPI, and YOLOv8 to autonomously detect and geospatially map civic incidents from live video feeds.

IOGENIUS — AI-powered IoT development platform built with React, Python FastAPI & Gemini AI; features cloud project history (MongoDB Atlas), real-time AI chat, and 1-click browser firmware flashing.

ACHIEVEMENTS

- 🏆 Winner – Techaura Hackathon 2026 (100+ teams)
- 🏆 Winner – Manthan4Yuva Nagpur Viksit Hackathon 2026 at VNIT, among 3500+ participants
- 🥈 Secured 2nd Prize among 50+ projects at TechVision National Level Project Competition 2026
- 🏆 Winner – TECHXPLORE 2K26 Technical Hackathon (100+ teams)

CERTIFICATIONS

- Zero Trust Cloud Security, Ethical Hacking – Virtual Internship

COURSEWORK

- Data Structures | DBMS | Web Development
